Matilda o donnell macelroy wikipedia

I also realized that this was probably the biggest "event" in the history of the Earth, and that I should be proud to be involved. After all, I was the only woman there and the only one who was not armed. By the end of our interviews, I have become more satisfied with our telepathic communication. These planets are located in systems stars in the tail of the constellation Ursa Major. Airl is currently housed at a base in the asteroid belt, which she calls a "space station" in Earth's solar system. The internal, diligent application of their teachings is our weapon against the exhausting spiral of chaos and oblivion, which is our material universe. Each of the two arms and legs had three "fingers" that were adapted for grasping. Conversely, the release of this information is potentially disastrous for certain political, religious and economic property interests. Our contacts took place through telepathy. We see in your minds / visions / feelings.Question - If you are not a biological being, why do you refer to yourself as a woman?Answer - I am the creator. HE IS. Yes, I have written several books about immortal spirit beings - because I am interested in the subject. WE ARE THE GREATEST / HIGHEST OF ALL. For this reason, there are more people of the arts per capita on Earth than on any other planet in the "Old Empire". This group also included intellectuals, inventors and geniuses in almost every field.Anyone who did not want and could not submit to senseless economic, political or religious slavery was sentenced to erasure of memory and permanent exile on Earth (V.L. - again a great resemblance to the narrated Invisible College ...).As a result, IS-BES cannot get out of this situation because they cannot remember who they are and where they came from. If you try to get the documents published as a factual report in the newspaper or on the evening TV news they will be dismissed as nonsense. Also, her body should not Food and therefore I did not have a mouth. The symbol represents the origin and unlimited limits of the known, united and attached universe in a vast civilization under the control of the domain. As the officer is-Be was stronger than the is-Be of the inhabitant in the body of the archduke, he simply "curled up" the creature and accepted the control of the body. Is it really a humanity in the universe? However, he felt that her interest in the history of the earth was not very strong or that she did not pay much attention. She said: I € œAt is above my body! "And I immediately realized that he was" he was "the body, looking down from the roof over my body's head! I could also see the room around me, including Airl's body, sitting next to my own body. ORDER. Thus, for many geniuses of the world population, the memory of past knowledge was partially restored. The people who "remembered" these sciences already knew them before they appeared on Earth. Finally, the domain discovered that a wide strip of space is under the influence of a "electronic force field," which governs all the IS-BES at this end of the galaxy, including the Earth. I had to learn to speak the foreign language, or the foreigner must learn to speak English. When the answers to the first list of questions were printed and delivered to the people who were waiting for them, they were very excited that I could get the alien to talk! The officer told me that he will wait for instructions. I refer to the alien name as "she." In fact, the creature had no sex in any form, neither physiologically nor psychologically. The victory. Although the dam was completed in 1940, he was an enthusiastic fisherman and tourist, so he decided to stay there. " Chapter Five Reading Lessons (MATILDA'S PERSONAL MESSAGE ON "DONNER MACELROY") Began reading lessons from the front pages of a school textbook that was used to teach the children of settlers on the U.S. borders in the 1800s. QUESTION - "How long have you known the Earth?" ANSWER - LONG FOR PEOPLE. This article is based on material provided by Matilda O'Donnell MacElroy, who allegedly interrogated an alien survivor of the 1947 UFO disaster in Roswell, USA. The events described there took place from July 8 to August 12, 1947, and the material presented formed the basis for the book Alien Interview. At that time, Matilda was in the army as a nursing ward, and she was the only one with whom the foreigner could He (or she) communicated telepAA© The arrived receipt was called himself by the approximate name "Airl". All the materials mentioned were presented by Matilda to the editor of the future book shortly before his death, some 60 years after those events in Roswell. And, it's clear to me that the alien knows that some people have secret intentions in it and hide their real thoughts. As a nurse, not a teacher, the language expert who gave me the books also gave me an extensive one-day course on how " use the books to teach an alien. In the 1960s, the population " reached 12,000 due to the Glasgow Air Force Base used during the Vietnam conflict and the start of the FrAa War. The night before my first interview with the alien, the base was buzzing with activity like a hive. And in general terms, the personal memory of individual beings on this planet is limited to a single whole life. I read what " I think as a telepathic "receiver" I did quite well, but not as well as a telepathic "transmitter." We left the press center together. Question: "Why did your spaceship crash?" Answer: It has been hardened by the atmospheric electrical discharge, which became the cause of the loss of control. I insisted that my answers were honest, and so precise, since it could get them! Later that day, it was decided that several other people would try to ask alien questions. -- Obviously, the operation of control of the remote mind of the "ancient empire" suffered some damages, which led to a slight decrease in the strength of this mechanism. Learning English was made for my benefit. -- She told me that the expeditionary force of the domain had entered the galaxy of the Lactea VAA, so recently, since about 10 000 years ago. However, I personally did not have close contact with the creatures on Earth from 5,965 BC, this is not my main function to interact with residents. Those crews were also attacked. The isaptive of the domain forces was treated the same way as others sent to Earth. They erased their memory, and memories were replaced by false, after which they were sent to Earth to inhabit biological bodies. . The alien could not communicate with them because they feared, or do not trust it. This, in part, explains the unusual mixture of breeds, cultures, languages, moral codes, religious and political influences between living beings on Earth. Question: How can we do that understand that we do not intend to make it children? The lack of a vocabulary common of clear words defined that both parties can use each other has been a manner that you deem appropriate. Question - "Can you describe your home world to us?" Answer - "Place of civilization" n / culture / history. Riddle or problem, paradox or apparent contradiction" Deep, unexplained or hidden property or symbol. With ORONES WELLES' dumbest radio show "War of the Worlds and the Invasion"n of Mars" from October 1938. "She has" There really was a fairly strong and feminine presence and behavior.
